Simply print the correct number of pieces for your desired length (**between 11 and 15 - including 1x 'Tie Knot Piece' and 1x 'Tie Knot Piece'**) and use pieces of 1.75mm filament for the connections to make the flexi-links.

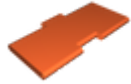

To loop the tie around your collar, thread a piece of string or shoelace through the three holes on the 'Tie Knot Piece' and tie the two ends together.

All piece print without support
