updated 12. 4. 2022 | published 16. 2. 2022

Summary

As result of a community request I redesign my Tamper Station Rocket E61 to RANCILIO Espresso machine. Changes are:...

[Household](#) > [Kitchen](#)

Tags: [rocket](#) [coffeetamper](#) [espressotamper](#) [tamper](#)
[espressomachine](#) [stamp](#) [coffeemachine](#) [rancilio](#)

As result of a community request I redesign my Tamper Station Rocket E61 to RANCILIO Espresso machine.

Changes are:

- Height of the stay not so deep. => to 28,1 mm (instead of 37.2 mm)
- Lateral intake change a little bit for better fit. => to 26 mm (instead of 28 mm).

Many thanks to Martin Kretzschmar for his idea.

See my original tamper station model for ROCKET E61. <https://www.thingiverse.com/thing:4967062>

Printing time: can be up to 8:50 hours.
