### IronMan Can Holder

Fits long EU **cans** with a capacity of **0.5L**. You can also use my insert for **12oz or 330ml (slim) cans (link below)**

Recommended print settings: PLA, 0.2mm layers, 2-3walls, 8-10%gyroid, Tree supports (at least 26°)

Here is the [link](#) to my model of the insert that you can use in **0.5L holders with your 12oz , or 330ml slim cans**, and **10mm riser** if you want **better access to the top**. Both are scalable, so you can make them smaller or larger in your slicer.

Happy printing:)
