Print in Place Articulated Flexy Snake

Hello,
I’m excited to share this articulated snake model, the design is fully articulated, so it moves just like a real snake – perfect for desk toys, fidgeting, or showing off your 3D printing skills.

- **Length: 36 cm** (14.17") (printed in one piece)
- **No supports needed** – just print and flex
- Perfect as a fidget toy, desk buddy, or display piece

Tips:

- Use a brim for extra bed adhesion on longer prints
- PLA/PETG both work great
- Scale up or down depending on your printer size

I’d love to see your makes – share your prints in the comments!
Recommended print settings, that i used:

- **Walls:** 2
- **Infill:** 15%
- **Brim:** 2–3 mm for better bed adhesion

Available exclusively for my Patreon supporters:67 cm (26.38") version36 cm (14.17") version+ Printable tree stand to pose your snake Join here to unlock them: https://www.patreon.com/kogi3d
