Hello everyone!

Keep your batteries organised in style with this unique **mini beer crate battery holder**! Designed as a remix from the original model on Printables, this version comes with practical enhancements like **battery indicators (empty/full)** and **clearly labeled battery types (AA/AAA)**. It's super easy to print with just tree supports for bridges and looks amazing with customisable colors. Perfect for desk organisation, gifting, or simply adding a touch of creativity to your workspace.
