Full version: <https://www.printables.com/model/1409633-flexilink-cable-management-system>

Keep your workspace neat and organized with **FlexiLink**, a fully modular cable management solution.

Each rectangular link snaps together to form a flexible chain, allowing you to route cables in straight lines, corners, or complex paths. Inside, three separate channels keep wires neatly divided, while the open-top design makes adding or removing cables quick and effortless. **Supports cables up to 6 mm in diameter.**

The snap-on lid secures everything in place, and side slots let cables enter or exit wherever needed. For mounting, the underside includes screw holes so FlexiLink can be fixed to walls, desks, or enclosures.

The Free Demo Version includes:

- Base Link (Length: 40 mm, Width: 35 mm, Height: 17.5 mm)
- Snap-On Cover

This version lets you test the system, print as many links as you need, and check how it fits your setup before exploring the full range of components available in the complete system.

Before:

After:

- **Update 26/09/25:**

The snap system on the lid has been reinforced with a thicker design to improve durability. This update ensures the clips hold up better when printed in PETG, preventing them from breaking during use.
