Veyra – The Thorned Serpent of Legends

Born from ancient flames and hardened by stone, Veyra is said to have slumbered beneath volcanic mountains for centuries. Its body bristles with jagged thorns, each scale sharper than steel, forming natural armor that no blade can pierce. Legends tell of its eyes glowing like molten embers, watching silently from the shadows as it guards treasures long forgotten.

Veyra is not just a dragon — it is a living storm of scales and spikes, feared for its cunning and revered for its unyielding strength.
