UPDATE 05/09/2023

The kit has been slightly updated with easier and less fiddly construction, clearer surface detail, tighter tolerances, and the upper ring being pre-attached. Available as a kit or frameless. All previous files will remain!

Joining the fleet is the Cardassian built space station orbiting the once occupied Bajor. It serves as a major trading outpost in the sector, as well as the first line of defence against the pesky Dominion!

It was **Destined** to hang from your Christmas tree!

For those uninterested in the card format, there are frameless variants included! Happy Printing!

Makes greatly appreciated, always happy to see them!

Print at **0.2mm layer height**, there really is no benefit from printing at a higher resolution and it could affect the fit.

Be sure to print with **100% infill** for it to hang straight as the weight distribution can be sensitive!

Having trouble getting the tolerances just right? **Set Outer Walls to print first.**

Makes greatly appreciated, always glad to see them! Happy Printing!

Be sure to check out my other Star Trek kits...

TOS Starship Enterprise

TNG Starship Enterprise-D

Looking to try your hand at making your **own Kit Card**? Follow this simple guide to get a head-start!
