Hi Folks,

We may not be fully in the Christmas season yet, but many of you are already starting to plan and produce for the holidays. So, it's time for Deltaprints to start ringing those Christmas bells as well!

Over the next few weeks, you'll be seeing plenty of new and festive models to get you into the holiday spirit. Let's kick things off with this charming little **Christmas decor scene** — simple to print and truly eye-catching once assembled. From the back, you can insert an LED tealight

or another small light source for a beautiful illuminated effect. In my opinion, it's a wonderfully atmospheric design — what do you think?

Standard dimensions (assembled): approx. 200 mm x 125 mm x 80 mm

Printed with the following settings:

- Layer Height: 0.2
- Walls: 2
- Infill: 10% Grid

Selling prints: not allowed – but with the right license, **it can be!**

Join my Patreon and unlock **400+ premium Deltaprints 3D models** – with **new designs every week** to boost your shop or project.
