Summary

Simple 1/4"-20 screw with knurling for mounting a webcam.

[webcam](#)

I printed JSund's mount for my webcam and quickly realized I didn't have a screw to attach it. Made this screw and it works perfectly on my Logitech webcam. Printed at 0.2mm layer height in PETG. Use grid infill at 1-20%.

Per **feedback** from user **Tripod Tech**: Anyone slicing in Cura, be sure to use the "Exclusive" option under Slicing Tolerance in the Experimental section.

Updated 2022-05-25:

Added another version with full length threads.

This remix is based on

Camera mount for Prusa i3 MK3/MK3S
