Minimalist Low Poly Reindeer Sculpture

For all fans of my minimalist sculptures... today I'm releasing another **Low Poly model!**

This reindeer fits beautifully into the Christmas season, but also works perfectly as a timeless decorative piece all year round.

⚠ Important:

Please avoid scaling the model too small — the antlers and legs may

become too fragile.

I recommend a minimum height of **170 mm**.

Standard model dimensions:

298 mm × 230 mm × 217 mm

Printed with the following settings:

- Scale: 60% (178 mm × 138 mm × 130 mm)
- Layer height: 0.16 mm
- Walls: 3
- Infill: 10% (Grid)
- Support: Tree (auto) – build plate only

Selling prints: not allowed – but with the right license, **it can be!**

Join my Patreon and unlock **400+ premium Deltaprints 3D models**
– with **new designs every week** to boost your shop or project.

As a member, you'll get:

Commercial license to legally sell your prints

STL + Fusion 360 files for full customization

Optimized print profiles for Anycubic & Bambu Lab

Professional product image sets to showcase your prints

Exclusive community chats for feedback & idea sharing

Personal technical support when you need it

Print & start creating today: patreon.com/deltaprints/membership

I use this high-quality filament for all my prints - check it out here: [\[Link\]](#)
