A knight in a bascinet, pig-face visor (hounskull/hundsgugel) helmet.

Suitable for 28mm tabletop games.

Created so that it does not need any supports and prints well on a cheap FDM 3d printer like the Ender 3.

There are variants with square and round bases.

NOTE The other pig-faced knight with a mace seen in the photo is available on my Patreon.

Let me know how it printed for you in the comments and makes!
