Above Ground Pipeline!

Everyone needs a pipeline, now and again. Be it your wargame, diorama, a scenic vista you are trying to create, or a hardcore game of 40K!

Well, here's a cheap and dirty set of above-ground pipelines. Ready to pump your promethium, sweet crude, or whatever lights up your day!

I printed these in Prusa PETG as that printer was free and loaded with PETG. But they came out remarkably well. I think the pipeline will look even better in PLA.

Designed on Tinkercad.

- No supports required.
- Superglue the valve handles.
