3D Printable Party Glasses

Key Features:

- **Shutter-Style Lenses:** The horizontal slits allow for partial visibility while maintaining the bold design.
- **Easy to Print:** No supports, just 20g of filament needed, printed in less than an hour.
- **Easy Assembly**
- **Customizable:** Print in different colors or metallic filaments (like gold or silver PLA/PETG) for maximum party impact!

Print Settings Recommendations:

- **Material:** PLA, PETG, or ABS
- **Nozzle Diameter:** 0.4mm
- **Layer Height:** 0.2mm
- **Infill:** 15%
