Summary

The mask conceals her true self...

Alicia's mask (latest version is Rev4), I revised it a bit to bring the cheeks in and modified the lips a little. Since then, extra details have been added (Big thanks to [Zlati](#) for sending me a nice reference shot of the masks side) . It is still not 100% accurate due to the details already added, to get a fully accurate mask I will need to start from scratch and model it, thats for another day hehe

If you prefer the one shown in the real images, you will find it labeled "rev2" in the files section, but be warned that the cheeks are too separated and will definitely need hot water shaping.

Fairly simple to print, I added grooves and cracks to give it a more weathered appearance. Fairly simple to paint, I will give it a try later and post the results. To make it fit your face exactly, dip in hot water (start with 40 c and work your way up, if you go too hot it will be damaged)
