100% inspired by the Switch Pro controller by npiegdon (https://www.thingiverse.com/thing:3030629).

Thanks to davec54's 3D scan, I have improved upon the original version of this stand. Now the thing fits like a glove. It's quite a bit of work, but nailing it is worth it.

*color separation not included in the model, it was just for fun.

Update: Version without DualSense text added.
