Summary

This is an adapter to hang the Meanwell RS-25-5 onto the DIN rail.

[3D Printers](#) > [Other Printer Parts & Upgrades](#)

This is an adapter to hang the Meanwell LRS-25-5 onto the DIN rail. I designed it (remixed an classical clamp design by Fabian) for my RatRig V-Core3 400mm.

Print as shown in picture and it not require supports.

I designed it for some M3 screws I had at hand, I think 6mm long ones.

I'm not gonna ask for a coffee, but please make sure you give me a like if you find this model useful.

This remix is based on

DIN Rail Bracket

by Fabian
