The **Solder Cable Holder** is a compact and practical tool designed to keep two cables perfectly aligned during soldering.

It uses **two adjustable clamps** that tighten via a threaded mechanism, allowing you to securely hold cables in place while keeping your hands free for precise soldering. Ideal for electronics work, repairs, and DIY projects.

The design is optimized for **easy 3D printing without supports**, making it quick to print and ready to use straight off the printer.

### Features

- Holds **two cables firmly in position**
- Adjustable clamps with **threaded tightening**
- Improves accuracy and safety during soldering
- **No supports required**
- Compact, simple, and workshop-friendly design

Perfect for anyone working with small wires, connectors, or electronics assemblies.
