This is a holder for your IPA-Bottle & Toiletpaper, so you'll never have to search for them again when cleaning the printbed. It's desinged to fit a bottle with a diameter of 75mm, but i have also created a holder for a bottle with 60mm diameter. In my case i use a dropper bottle for the IPA, you should find it when searching for: "dropper bottle HDPE 500ml", but other bottles with similar diameters will fit aswell.

No supports required.
