

3D MODEL ONLY

Dry Food Carousel Dispenser - Print in Place

[VIEW IN BROWSER](#)

updated 14. 1. 2023 | published 14. 1. 2023

Summary

Similar to an hotel breakfast cereal dispenser but uses a PET bottle as the food container

[Household](#) > [Kitchen](#)

Turning the knob makes the content of bottle came out in controlled portions.

Possible uses: Sugar, Coffee, Tea, Condiments, Powders, etc. ...

Important Printing Settings and others

Print at 0.2mm, no support needed but uncheck PrusaSlicer "Detect bridging perimeters" (already done on supplied 3mf)
Most content materials will required at least a breath hole to the top of the PET bottle, specially finer powders. Rice is the "max grain size" to a useful device.
