Tags: [bottle](#) [holder](#) [pen](#) [fountain](#) [ink](#) [pilot](#)

I wanted to organize my ink drawer, and I couldn't find anything that would fit these gorgeously shaped bottles. Prints in two parts. I printed this in local recycled PLA, 20% Quality settings in PrusaSlicer. 15% infill, no supports. Parts friction fit with no glue required. Print flat sides down

The v2 parts have fewer legs (8) connecting the upper and lower sections than the original design. The original baseplate is pictured in the photograph.
