Tags: [mini](#) [ubiquiti](#) [flex](#) [ubiquity](#) [ubnt](#) [uswflexmini](#)

The battery used is the Anker PowerCore Slim 1000 PD
#6-32 x 1" countersink screws + 6-32 Square nuts

you will need to disassemble your USW Flex Mini

it is held together with Snap joints. it is very easy to open with a plastic prying tool. you may have to cut the plastic where the USB-C connector to pull the board out easier.
