Summary

Simple case design for the MurphPad keyboard to diffuse LED and keep dust out.

Tags: [keyboard](#) [mechanicalkeyboard](#) [murphpad](#)

Simple case for the **Murphpad**. Helps diffuse the LED and keep dust out.

Choose the wide version for a wider tolerance for the pro micro USB slot.

I recommend soldering 2 pins of the pro micro and aligning to the slot. If you're printing this after building the MurphPad you can lightly file the slot until it fits.

Not associated with MechWild nor the MurphPad project.
