I invested in a fire extinguisher just incase the worst case scenario happened. This is a stand to keep it neat an safely upright.

Designed to fit any extinguisher up to 104mm in diameter, this stand uses a 200mm squared footprint to keep the extinguisher secure and stable.

The extinguisher I designed it for is a 2kg C02 one (https://www.amazon.co.uk/gp/product/B00NPWP6GI/ref=as_li_qf_sp_asin_il_tl?ie=UTF8&tag=ukbifr-21&camp=1634&creative=6738&linkCode=as2&creativeASIN=B00NPWP6GI) which is much less likely to cause lasting damage to electronics compared to the powder ones.
