### Summary

Kind of pointless as a lithophane but still looks nice

Tags: [lithophane](#) [penguin](#)

I had this foto of a penguin art piece, so I turned it into a lithophane. The picture is already very well visible without backlight but that makes it much more “universal” in use.

I used itslitho.com to generate the lithophane.  
Print time was around 2h48min at 0.2mm layer height
