Summary

Slightly edited the foot to make room for a pocket to insert a 6mmx3mm cylindrical magnet.

[Toys & Games](#) > [Action Figures & Statues](#)

Simple edit of the existing foot model, adjusted the geometry a bit to add some extra room for a pocket which fits a 6mmx3mm cylindrical magnet. Depending on your tolerances it can either be press-fit or glued. The magnets can add some fun options for posing on ferrous surfaces!

Requires a small bridge over the pocket, some post processing might be necessary depending on your bridging ability.
