Summary

Remix of Bosch PBD40 Knob

[Hobby & Makers](#) > [Tools](#)

Tags: [bosch](#) [drillpress](#) [knob](#) [pbd40](#)

I liked the design by Andreas Gohr and changed a few things to my taste:

- chamfers on the mounts
- one mount with hex nut trap, so now two different mount pieces exist
- only 1 mm gap between the mounts that disappears if screwed tight

BOM is the same:

- two 608Z skateboard bearings
- one M8x60mm screw
- one M8 nut
- one M8 washer
- one M5x35mm screw
- one M5 nut

Models to print:

- 1* Knob
- 1* MountA

- 1* MountB
