### Summary

This hook was generated by AI to maximize its strength to material ratio.

[Art & Design](#) > [Wall-mounted](#)

Tags: [wall](#) [hook](#) [mount](#) [ai](#) [generativedesign](#) [wallhook](#)  
[stress](#)

This hook is built on a print in place dovetail system there's no need for any supports.

Simply break apart the dovetail part after printing and then screw it to the wall, slide on the hook and you're done!

recommended printing at 25% infill for strength but depending on your use case you could get away with less.
