Wanted a shelf to put some Pops on. Only one i could find had sooo many supports and was not large enough to hold 12 Pops.

Size if printed as pictured: 22x12x4 but can be made as many levels as you wish just print a ladder for each level.

Print Settings :

Layer .3

Infill 15%

3mm holes for screws to hold the left and right sides together.

Used a bit of glue on the ends of the shelf just for extra strength, not actually needed.

Glue ladder end to end, glue ladder railing ( if wanted ) to ladder once dry.
