This prints entirely as one (print-in-place), both the outside and the cross spin like a fidget spinner. There is also a spot in the model for two 1mm x 6mm magnets in the cross to embed if you'd like as a fridge magnet.

For fusion 360 animation see here: <https://youtu.be/urmyK8OauLE>

Bible verse on 3D printed coin is:

<https://esv.org/romans6:23>

"For the wages of sin is death, but the free gift of God is eternal life in Christ Jesus our Lord."

Use these to spread the gospel on sign posts or anything metal.

I used PLA 0.2mm on my **Prusa** Mini Plus (54 minute Print). Infill can be whatever, no supports or rafts needed. Print at 100% size.

Try adding a drop of any kind of oil to the circle spinner and it spins quite well.
