[Hobby & Makers](#) > [Other Ideas](#)

I have added "slide on" holders on my son's stroller to facilitate sliding things on and off, so I remixed the design of the slide on bracket (from <https://www.thingiverse.com/thing:4698963/files>) + the design of the gimbal cup holder (from <https://www.prusaprinters.org/prints/129329-universal-travel-coffee-gimbal>) to create one design, allowing you to easily and quickly remove the cupholder in a modular fashion.

I'll be printing it in ASA since we use the stroller outdoors in the sun quite a bit.

### This remix is based on

**Universal Travel Coffee Gimbal!**
