Hey you!

Are you tired of your boring grey cap for your cobasTM e411?

Or do you even lost it and now you are helping yourself with boring foil to keep the dust out?

Look no further!

I came up with this brilliant replacement cap!

-Just print it and put it on your wash tank!

-No screwing around required!

-Comes even with a nice biohazard-symbol, fitting for every lab!

-Free in colour choice: leave it at a resin colour of your choosing or repaint it!

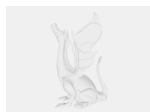

Keep the dust out and give your little machine something more style!
