This is the first thing I've designed and printed. All walls are 1.6mm and the whole thing prints quite quickly with an 8mm nozzle.

I added two long boxes to help make it square, but they take the longest to print. They are meant to replace the crop and mine token holder that comes with the game. It's a little harder to see what you're getting, but you save a ton of table space.

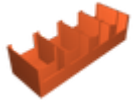

I printed this on a prusa mini using an 8mm nozzle and got the whole thing done in about 12 hours.
