Summary

Closable pouring spout for dispensing your homemade sauces and dressings or all other liquids from a PET bottle

[Household](#) > [Kitchen](#)

Tags: [pet](#) [cap](#) [screw](#) [bottlecap](#) [bottleopener](#) [homemade](#) [dispenser](#) [pouring](#) [liquid](#) [dressing](#) [sauce](#) [spout](#) [pourspout](#) [waterdispenser](#) [waterspout](#)

The spout has an opening with a diameter of 5 mm.

If you store sauces or dressings in the bottle, it is wise to print food-safe.

Please read this information: https://help.prusa3d.com/en/article/food-safe-fdm-printing_112313

No support is required for printing.

I myself printed the spout and cap with 0.02 layer thickness and 20% fulling
