Summary

Print four to hold up shelf board for monitors to rest above the desk. Enlarge hole and join with tension pin.

Tags: [stand](#) [monitor](#)

I cut the design in half to fit on the Prusa Mk3s+ bed. Two parts work well on the print bed. Sized for 10" shelf, actually 9.75-inches (24.765 cm). I enlarged the hole and joined them with a 1/4-in tension pin.

Easy design to alter or create yourself.
