Summary

Automatic Water Powered Fruit/Berry Washer just turn the tap on and off it spins

Household > Kitchen

Tags: kitchen spinner spin fruit clean auto automatic wash washer salad kitchensink hydro berry kitchengadget veg berrys

This automatic fruit and berry washer is lightweight for its size, requiring less than 200g of material to print, and performs exceptionally well Simply turn on the water, and it handles the rest efficiently.

It is ideal for fruits, berries or small veg essentially anything that fits.

V3 Doubles the volume compared to my other version if you would prefer a smaller one you can find that here

Berry/Fruit Washer V2 Water Powered by ApophisPrints MakerWorld: Download Free 3D Models

While it functions well with PLA, PETG is a more suitable material.
