Hi

the idea is to get your sh\*t together with batteries n stuff.

ONE type of battery pack --- suits all your enery needs.

10W LED Power? --- no problemo

RGB Disco light? --- easy

E-Bike? --- probably

Camping light? --- there you go...

Designs for modular connectable things follow.

working on 10W LED right now

## Print instructions

for the HULL support is necessary...

works best if you have a width of 0,45mm adjusted and therefore a 0,4 mm nozzle ( to avoid crazy infill)
