Tags: [headphones](#) [akg](#) [earpads](#)

This is a simple recreation of the plastic rings on the bottom of the standard earpads used with the AKG 701 (and other compatible ones).

It will allow you to test many 3rd party earpads (standard 100 mm ones) and see which one works best with your headphones.

After printing, gently bend the tabs using pliers, like you see them on your original pads.
