Overview

These minimalist floral silhouettes are the perfect fusion of traditional nature and modern industrial design. Unlike standard 3D prints, these models focus on clean lines and "flat" aesthetics. Whether placed in a vase, used as unique wall art, or attached to a gift basket as a high-end topper, these flowers elevate any environment.

Why you'll love this print:

- **Zero Stress, No Supports:** Specifically engineered for FDM printing. They print perfectly flat on the build plate with **100% no supports needed**.
- **Base-Free Design:** In line with "The Honest Shelf" philosophy, these figures stand on their own "feet" without bulky, distracting bases—making them incredibly versatile for vases or wall mounting.
- **Filament Friendly & Fast:** Very low material usage and quick print times. A perfect "last-minute" gift that looks like expensive designer decor. ✂
- **Infinite Use Cases:** Perfect for home staging, office desks, "Wichteln" (Secret Santa) gifts, or as a creative upgrade for Mother's Day gift baskets.

Print Settings (Quick Guide)

- **Material:** PLA or PETG (Matte filaments like Matte Black or Terracotta look stunning!)
- **Infill:** 100 (though they are mostly walls!)
- **Supports:** None. Zero.
- **Scaling:** Feel free to scale them up or down; just ensure your first layer adhesion is dialed in!
