Summary

A small mod to aid in mixing paints in a small cup

[Hobby & Makers](#) > [Tools](#)

Tags: [paint](#) [airbrush](#) [tattoo](#) [mixing](#)

Add on to a Tattoo Ink Mixer, I create this to mix airbrush paints when in a shots size plastic cup, but could be used with other things, it has a 3mm hole that the original mixing sticks.

Will fit in larger bottles and have used with wooden skewer sticks, and small hobby hand drill to mix acrylics.
