This thing is a game piece for the game Topple.

Instructions

I do not have a 3d printer yet, so I can't say how well it will print. I would assume not without support. If you have the game, or just want to try printing it, please let me know how it works, www.ericweide.com! Thanks! It is about as accurate as I can make it. I'm still learning this software. I used Netfabb to fix and and export the STL.
