This head base model is meant to be printed as gyroid infill (with flexible filament - like TPU) - without outer walls or top layers.

This model is not meant to be printed with PLA.

The cat head base can be used to build a puppet-, plushie-, robot- or a fursuit-head (costume). I did add some ventilation holes, that can also be used to attach the fur.

The ears, tongue, and nose are not included - use:

Nose: <https://www.prusaprinters.org/prints/95914-fursuit-or-puppet-head-base-version-80-khajiit>

Tongue: <https://www.prusaprinters.org/prints/95846-tongues-for-fursuits-and-puppets>

Ears: <https://www.prusaprinters.org/prints/95847-fursuit-dog-ear/comments#comment-100329>

The head is scaled for costume size (for small heads) - rescale it if you need to.
