updated 25. 3. 2022 | published 25. 3. 2022

Summary

A nozzle holder for your extrusion, designed around 3030 but would work otherwise.

[3D Printers](#) > [Accessories](#)

After getting my Revo setup I knew I needed a nozzle holder!
Not happy with having it on my already crowded desk, it only had one logical place. on the frame of the printer with the REVO!

Add your size Tnuts and screws and youre good to go!

This one was printed in Carmine Red PETG Prusament for reference.
