Summary

Need a spool to store your NES controller wires? Well this was the best answer for that question I could come up with.

If you don't have a 3D Printer I can make it for you from my stores on eBay and etsy

etsy -
<http://www.16bitgamestore.etsy.com/>

eBay -
<https://www.ebay.ca/usr/16bitvideogamestore>

To assemble you will need x4 10-32 Nuts and 1/2" screws. Hammer the nuts into the Left and Right Legs and screw the top controller housing into the legs.
