Can't find the Amiibo you want?

Have a pile of functional NFC stickers, but wish you had some nice looking Amiibo to stick them on?

This is a custom Amiibo base designed to turn non-Amiibo World of Nintendo figures (like this: <https://www.amazon.com/World-Nintendo-Mario-Action-Figure/dp/B00UPI5LQ0>) into functional Amiibo. Specifically, it fits the 8-bit Mario and is modeled after the base of the official 8-bit Mario Amiibo.

Using your phone, program an NTAG215 NFC sticker (see: TagMo), insert into the base, and add figure.

Included: regular base (Smash Bros. symbol), as well as bases with footprints cut out for 8-bit Mario, Luigi, and Link.

Category: Video Games
