There are a few other sheriff and star pins out there, but this one has a great connection for a safety pin to attach it to your clothes. The safety pin (0.029" or 0.74 mm wire) snaps into a slot in the back. It is kind of hard to snap in, I pushed it in with a small screw driver, but it does not fall out. You need to use a 0.4 mm nozzle or smaller or the pin connection does not work. I included a STL file without the lettering to make it easier to customize.
