This is a print in place, 1 piece model. The holder/case has a built-in hinge and lid and self-latching. It holds 28 Micro SD cards and a 2-card bay for the SD Memory Cards. For the person who just wants to store more than 6 or 8 cards.

Very simple print requires no rafts and no supports.
The resolution is up to you, 0.12 looks good but some are happy with the finish at 0.2.
