updated 29. 4. 2022 | published 26. 3. 2022

Summary

Designed to replace the stock Iron holder on old school spring style stands.

Tags: [station](#) [soldering](#) [solderingiron](#) [solderingstation](#) [t12](#)

The original holder for the on my spring style stand doesn't fit at all - So I designed a version to be printed in eSun ABS+.

I recommend this be printed with supports on "Build Plate only".

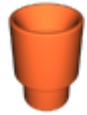

UPDATES:

29/4/2022 - v2 solves an issue with the hot part of the iron contacting the inside of the holder.
