updated 26. 3. 2022 | published 26. 3. 2022

Summary

A pill box in the shape of a capsule to take with you. Suitable for +/- 13 pills

[Household](#) > [Other House Equipment](#)

Tags: [capsule](#) [travel](#) [pillbox](#) [pill](#) [pillcontainer](#)
[capsuleholder](#)

It is best to print this pill box with a filament that can withstand heat so that it does not deform in the hot sun or in the car, such as PETG or ABS, but PLA is also possible.

I printed it myself in PETG with a 0.02 layer thickness and 15% infill
