### Summary

Landing gear DJI Mini 2 - Weight 3,4g - hight increase 35 mm

[Hobby & Makers](#) > [RC & Robotics](#)

Tags: [drone](#) [dji](#) [djilandinggear](#)

This is an improved version of [Roboprint3d's](#) Landing gear. I modified the mounting clips, so that they fit better on the Mini 2 and removed the arrow, because this was a weak point.

Verbesserte Version von [Roboprint3d's](#) Landefüßen. Die Clips sind leicht angepasst, damit sie besser auf die Arme passen. Außerdem wurde der Pfeil entfernt, da es an dieser Stelle leicht brechen kann.
